EDUCATION

B.Tech (Honors) in Computer Science and Engineering

Indian Institute Of Information Technology, Sri City | Expected Graduation: 2028

CGPA:8.97

TECHNICAL SKILLS

Programming Languages: Python, C, Java

Web & Backend: HTML, CSS, Flask, JavaScript, Node.js

Tools: Git, Jupyter, Linux CLI

PROJECTS

HireGPT | Technologies: Flask, Python, NLP, Machine Learning, SQLite

- Built an AI-driven interview assistant to evaluate spoken and written responses using NLP and ML-based scoring.
- Implemented automated interview workflows, candidate tracking, and coding challenge evaluation using Flask and SQLite.

Smart Traffic Monitoring System | Python, YOLO, OpenCV, PyTorch

- Implemented YOLO-based pipelines for vehicle detection, classification, and license plate detection from video streams.
- Worked on preprocessing and inference optimization to achieve near real-time performance under hardware constraints

MedTranscribe | React Native, React, Flask, Firebase, Supabase, AI APIs

- Built a cross-platform mobile and web app for real-time medical voice transcription using AI-based speech recognition.
- Extracted medical terms and generated structured clinical notes with secure authentication and cloud storage.
- Enabled offline recording with deferred transcription, delivering a functional prototype in a healthcare hackathon.

ACHIEVEMENTS

- Secured 1st position in Innoventures Hackathon, Utkrishta 2024.
- Secured Consolation prize in IIIT SriCity International Healthcare Hackathon, Abhisarga 2025
- Secured 1st position in IdeaVerse Hackathon, Abhisarga 2026
